

Get Control of Your Classroom Again!

Impulsive Students?
Unmotivated Students?
Disengaged Parents?
Unresponsive Management?
Burned Out?

Did you know that you are a survivor? The American Psychological Association (APA) reports that 30% of elementary and secondary teachers leave the profession after only 3 years and 50% leave after 5 years because of the stress. It's no wonder. You are expected to be:

- *teacher
- *nurse
- *counselor
- *babysitter
- *entertainer

Who is there to support you? Your fellow teachers? Support staff? Family?

We at the **Getting Smart** understand. **Getting Smart?** Are you surprised? Why would we be interested in *you* or in *your* education?

You already know that we are invested in the education of our children. To achieve that, we are also invested in the support and continuing education of teachers.

We want to invite you to learn more about how *BloomBoard*, a teacher development system, is helping teachers in much the same way that lesson plans help students. When you achieve, your students achieve, and your administration is happy.

You are invited to sign up for our e-mail updates. By doing so, you can stay on top of the latest developments in *BloomBoard*, download publications, and more.

Yes, sign me up. I want to stay on top of the latest developments in BloomBoard as well as with other educational issues.
