Sales Promotion for  
 Licensure Renewal Thru June 30,  
 2015

Welcome to EliteCME. Since you have arrived here, I expect that you are a mental health social worker. I too am a social worker and know what it is like to be busy with my professional and personal life. I have good intentions, plan to stay on top of things, but it is often difficult to leave the office. I feel guilty for rescheduling client appointments once- twice- for matters beyond my control. How can I possibly schedule something for myself? Sound familiar?

Fortunately, the web is making things easier these days. We communicate online in e-mail, with Facebook and LinkedIn. We do our banking and shopping. Why not obtain our CEUs online as well?

Why EliteCME?

The Virginia Board of Health Professions has made it easier for us to obtain our CEUs in recent years by allowing us to complete them online. How convenient! We need to complete 30 hours of training every 2 years to qualify for licensure renewal. This sounds like a lot but it's not when you consider that the current EliteCME course offerings amount to just that-30 credit hours! If you are not interested in the most current of the course listings in the EliteCME 2015/2016 Edition, you may find something you like in the Archived Index.

Consider what EliteCME has to offer:

- \*14 years in the business
- \*quality content written by expert educators; 98% of customers would recommend EliteCME to a friend
- \*online access 24/7 to the coursework and your certificate
- \*no upfront payment; pay only after you pass the exam
- \*only \$4.00 per credit; the most expensive course is \$24.00
- \*100% satisfaction guaranteed; no upfront payment
- \*guaranteed lowest prices or match any competitor's offer
- \*Better Business Bureau Accredited: A+ Rating
- \*NASW-approved CEU provider
- \*NBCC-approved CEU provider

The 2015/2016 Edition:

I must confess, I read the EliteCME course content because I enjoy it, whether I need the CEU credit or not. I have colleagues who have complained before that they "have to" get their CEUs. They laughed when I told them I enjoy reading EliteCME. They took a look at the catalog and saw the quality of the Chapter content and the Examination Questions that follow. They are not laughing anymore!

The 2015/2016 Edition does not disappoint:
